

# THE CASIO RANGE OF PROJECTORS

## GREEN SLIM

The Green Slim series is the perfect choice for those looking to upgrade their current projectors. An industry-leading 2x optical zoom means that a Green Slim model will replace almost any installed projector seamlessly, without having to move the existing ceiling brackets.

## SIGNATURE

The nine models in the Signature series offer a range of connectivity options, including RGB, HDMI, LAN, WLAN & USB\* and similar to the Green Slim series offers great retro-fit solutions. Selected models also offer remote fleet management capability.

\*available on specific models.

## SHORT THROW

Both models in the Short Throw series are easily re-fitted to existing short throw systems where projector replacement is required. Their ability to be connected to a network means that they can be monitored and controlled from a remote location, allowing users to centralise the management of their projector fleet.

## ULTRA SHORT THROW

The NEW Ultra Short Throw model offers brightness of 3,100 ANSI lumens – more than enough for even a large, bright classroom or meeting room and features WXGA resolution with XGA compatibility option. The main benefit of Ultra Short Throw projection is that it virtually eliminates shadowing on the screen allowing for more creative and engaging presentations.

## PRO SERIES

The six Pro Series models are the perfect option for those wanting to take advantage of the Laser & LED Hybrid light source whilst presenting in larger spaces. These models also offer advanced connectivity perfect for the demands of these types of installation.

## DUAL PROJECTOR SYSTEM

Now high brightness utilising the benefits of Laser & LED Hybrid technology can be achieved with the dual projector system. The stack system provides up to 6,000 ANSI lumens brightness and creates and projects overlapping images onto a single screen. Ideal for larger scale installs including school halls, lecture theatres and leisure applications.
