StarBoard Link EZ2

# Modular Interactive Whiteboard System

Transform your dry erase board into a fully functioning interactive whiteboard!

Save money, space and time! StarBoard Link EZ2 turns your dry erase whiteboard into an interactive whiteboard and converts already acquired equipment into an engaging interactive environment.
Attach the system to any flat surface, connect it to a computer, connect the computer to a projector, a quick set-up routine and you are ready to start teaching with a fully functioning IWB.

Easy installation
StarBoard Link EZ2 secures to any flat surface in minutes to transform a static wall into an interactive environment.
Finger-driven technology
Use your finger, stylus or any object to easily navigate through activities, websites, and multi-media content.
Resizable input area
The size of active area is adjustable - from 60" if the surface is limited, to 90" for the rooms where a bigger size of projection and work space is required.

Interactive Group Work
Up to three users can operate the StarBoard Link EZ2 simultaneously and work in a team on the same task.
