

Powerful, versatile and robust Enterprise level media player

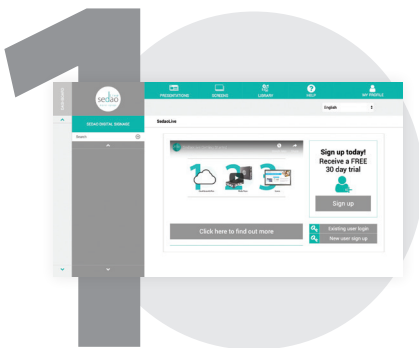

The Sedao PRO-V4 is a powerful enterprise level digital signage player ideal for organisations wanting to engage with their audience 24/7 or schedule start up and shut down display times. These players allow playout on screens of any size, landscape or portrait, and use the Sedao software platform and design bundle to display templates or create layouts which simultaneously display multiple information zones using all your existing media – movies, photos, websites, electronic posters and more.

The versatility of the PRO-V4 which can be either CLOUD or Local CMS driven, enables scalability of size so ideal for single site, single or multi-screen applications, and multiple site multi-screen applications.

PRO-V4

- Manage your display from your online account using any internet connected device, or via your secure Local CMS within your network
- Use RTC (Real Time Clock) for Power on/off scheduling
- Easy to use and designed for non-graphic/non-technical users
- Choose from modern templates with varying multimedia zones including built in time and date widgets
- Add your logo, colour scheme and theme image to the templates for a personalised display
- Create bespoke layouts with the design software suite
- Update message with text, images, videos, news feeds, pdfs, PowerPoint and more
- Send promotional and emergency messages instantly
- Supports touch Integration for Kiosking and Wayfinding
- Low Processor consumption to handle complex Multizone signage
- Dual Head Graphics for Multiple Display connectivity

Easy to follow Set-up Wizard for a complete Out-of-the-Box customer experience to get you started today!
